As a result of the recent visit of Prof. Oleaskov from Austria, there arrived on Monday's train 32 emigrants, comprising about 70 souls in all, of Austrian Poles and naturalized Germans from Galicia. They are described as Ruthenian settlers. These are the forerunners of what is expected will be a very large immigration of Austrians to this district. They bring with them from \$200 to \$500 per family. They use spindles and hand looms and weave their own cloth. They have left Austria principally on account of the congested state of the country there. Four of the party have gone out under the guidance of John Borwick to select homesteads for the party in the neighborhood of township 56, range 18. Prof. Oleaskov was struck when here with the natural advantages of this district, the fertility of the soil, and the quantity of timber within easy reach of the settlers. The fact of there being no taxes until school districts are formed also suggested that new settlers with small means could place themselves in comfort, with a certainty of supplying all their needs and every probability of improving their condition every year.

A MEETING of the conservative association was held last night to elect delegates to the convention to be held in Calgary on Saturday, W. B. Stennett and A. Johnson were appointed, with instructions to support Dr. Wilson if there is any possibility of him getting the nomination. If the doctor has no chance with the convention the delegates are to support Cochrane's candidature.

THE sitting of the supreme court commenced Tuesday, Judge Scott presiding. In the criminal case of the Queen vs. Jewell for obtaining goods under false pretences the prisoner was sentenced to one month's imprisonment with hard labor. The court was occupied with chamber work up to last night with the exception of this one case. The other criminal cases will be taken next Monday.

W. J. WRIGHT, fur trader at Lac la Pêche, met with a serious accident on Monday night while driving down to Fort Saskatchewan. About midnight he reached the hill leading down to the river near T. Lamoureux's farm and was loaded with freight. While going down the hill the neck yoke broke and the team threw up the bank upsetting the wagon. Mr. Wright was thrown off and his right arm broken. He reached Lamoureux's and was taken to the police hospital.

This town was excited for a short time last Thursday evening by a runaway team belonging to J. Huff. The team was started by the little son of A. E. Potter getting into the wagon while Huff was opening the door of his house. The horses ran over McCaulley's weigh scales and fortunately turned round into College avenue, which they followed to First street and ran along to the back of Elizabeth street, thence across Fraser avenue, jumping the sidewalk planks, on to and up Nemayo avenue and round several corners until they were finally caught by J. Hunter on Sixth street. The team was followed by several cyclists and men and boys on horseback, everyone expecting to see the child thrown from the wagon and probably fatally injured, but he held on and escaped with sundry bruises by being knocked about in the wagon as it jolted over the obstacles it met.

The Greenfell Sun gives the following interesting information of an incident in the cattle trade: Mr. Tyron of that town bought nine oxen about January 1st, which weighed 15,590 lbs.; they were sold on April 22nd, when they weighed 17,780 lbs., showing a net gain of 2,200 lbs. At the time Mr. Tyron began to feed these oxen he also put in twelve head of young stock, which were not weighed, but had been bought at a figure reckoned to correspond with an average of 1,000 lbs. each; they were sold on the 22nd of April and weighed 15,300 lbs.; and this would leave an estimated gain of 3,330 lbs., which is considered to be rather under than over the mark. The total amount paid for the 21 head was \$582, and they brought \$1,058 when sold. The amount fed totalled 300 bushels of turnips, 450 bushels of oats 325 bushels of feed wheat 3 bushels of flax, 8 loads of green sheaf oats, and five loads of green sheaf wheat grown as fodder, together with about 20 loads of hay. The oats and wheat were crushed, and the sheaf fodder chaffed by hand.

"If you are against remedial legislation, say so, and show it by your vote. If you are honestly in favor of it, adopt the principle of this bill, and then go to work and make it as effective as possible."—Hon. G. E. Foster.

THE CONSERVATIVE POLICY.

The new leader of the conservative party has issued a statement of the policy upon which he appeals to the country at the forth coming elections. It would be difficult to exaggerate the importance of the document to every elector for it indicates by assertion, implication or omission, the course which is to be pursued by the government of Sir Charles Tupper should he be returned to power. For although Sir Charles' promises are not considered to be very solid coin, his appeal being made along certain lines his supporters must be elected along those lines and therefore they will be bound to adhere to the policy laid down, which will to that extent bind him. The statement of policy fills more than two newspaper columns and touches on a number of important questions upon some of which Sir Charles takes a very definite position. His first plank is announced as follows: "I feel that I may safely appeal to your cordial and direct support in maintaining the national policy as a measure essential to the continued prosperity of Canada." He alludes to this as the supreme issue and intimates that a declaration in favor of the liberal party would undoubtedly lead to a disastrous revolution in the general business of the country. His second plank is development of trade relations with Britain, which development he hopes to obtain by a tariff based on mutual concessions and a better Atlantic steamship service. These two planks occupy over half the length of the address. On the Manitoba school question he says: "Feeling we are doing right, it is our patriotic duty to adhere to the policy we have adopted in this regard." In support of the agricultural interests the government has established experimental farms, whose "usefulness is capable of still greater extension." The tariff of 1878 he says has protected the home market and encouraged the export trade. "It has been the policy of the government to provide railway and shipping facilities throughout the Dominion, so that the products of the farm may be marketed to the best advantage and with the best results to the producer." The government has undertaken to establish cold storage centres and to encourage the dairy industry. "In short the government has left nothing undone which could assist the farmers of Canada in making the most out of their labor and skill—and this course it is proposed to follow in the future." The perfecting of the militia will be one of the first considerations of the government. "The government fully appreciate the need of an increased population in the great farming province of the West and propose to take all practical steps within our means to induce a large and desirable immigration." Negotiations for the entry of Newfoundland into the Dominion will be resumed. In conclusion he points to the high credit which Canada enjoys in the money markets of the world and declares that this condition should not be disturbed by "exposing the country to the revolutionary policy of the liberal party."

It has been painfully evident to the people of the Territories for some years past that the development of the Northwest had ceased to be an important part of the policy of the conservative party, but they were scarcely prepared to be left out quite so completely as they are by Sir Charles Tupper's address to the electors of Canada in which he sets forth the policy upon which he appeals to them for support—and particularly, of all other men by Sir Charles Tupper—he who reckoned the population of the Northwest by millions and its products by hundreds of millions as a result of his policy of development. As soon as Sir Charles

was spoken of for the office of premier his partisans in the West declared that his elevation to power meant the pushing of Northwest development, which admittedly had been allowed to slacken under Sir John A. Macdonald's successors. The Hudson's Bay railway was to be built forthwith, the St. Andrew's rapids on the Red River were to be improved. Probably they are, but Sir Charles is careful not to say so. Sir Charles' omission of all reference to a policy regarding the development of the Northwest from his speech is not by any means accidental, but is a part of the settled policy of his party. The fear expressed by the Free Press that the Northwest will be injured by the free discussion of the matters which intimately affect its welfare, is really touching, and seems to be fully shared by Sir Charles, but is not shared by the people of the Northwest. There are certain matters intimately connected with the welfare of the Northwest which require attention right now, and the people of the Northwest are not inclined to take Sir Charles Tupper or the Mail-Empire or even the Free Press on trust on these points. The people demand a reversal of the government's policy of monopoly for the Canada Pacific railway in the Northwest. That is the great need of the country as everyone knows, but it is the one need that the government of Sir Charles Tupper cannot supply, by reason of its close connection with the C. P. R. The high railway rates are the greatest drawback to the prosperity of the Northwest—and the fact that as long as the present government remains in office there is no prospect of their reduction either by government regulation or competition. The rates are high simply because the government protects the railway company in their monopoly; and until that condition is changed and the railway is exposed at least to competition, if not to actual control, we must expect to suffer from the high rates. With this as the great question in the Northwest it is easily seen why the Mail-Empire and the Free Press and Sir Charles Tupper are so touchingly anxious that the Northwest should not be dragged as an issue into the contest.

POLITICAL NOTES.

Sir William Hingston is spoken of as a candidate against McShane in Montreal Centre.

The Free Press says: It is rumored that Sir Hector Langevin has consented to contest Quebec Centre against Hon. Francois Langelier with the understanding that he shall succeed Chapleau as lieutenant-governor of Quebec on the expiration of Chapleau's term in the event of the government being sustained.

The Globe's Ottawa special says: Leading men are leaving the Conservative party and joining Laurier. The defection of Chipman, a leading merchant of Nova Scotia, and until this election one of the foremost workers in the Conservative party, is a serious blow to the government. His appearance as chairman of a big liberal meeting in Halifax leaves no doubt as to where he now stands.

Ex-Mayor Mulhern, of Cornwall, has written the local press to say that he has left the conservative party and given allegiance to Laurier. Among others prominent Tories mentioned as now supporting Laurier are McKeown, barrister, St. John; Forbes, head of the Forbes Manufacturing Co. of Halifax; Hon. W. M. Pugsley, Q. C., nominated by the Tories of Kings county, N. S.; Dr. McLennan, now liberal candidate in Inverness, and others. In West Peterboro, East Toronto, Leeds, Montreal West, and other places the Conservatives are split. The effect will be to increase the liberal majority in the next parliament.

A Montreal dispatch says: Chapleau's refusal to join the Ottawa government after congratulating Tupper on his victory in Cape Breton, is a fruitful topic of conversation. When Tupper was elected, he wrote intimating that he would be willing to join a cabinet or lead in Quebec. When Bowell resigned and Chapleau refused to come in, great was Tupper's chagrin, and some of Tupper's intimate friends here declare that Chapleau will never again be offered a seat in the Tupper cabinet. Tallon, at Sherbrooke said, "I gave up the premiership almost like a desertion. I did not have time to consult my colleagues except two who were in Montreal. Tupper had been counting on Chapleau, who stated that poor health precluded his accepting office. If the French section of the cabinet is not complete by to-morrow, we are threatened with disaster."

ST. ALBERT CATHOLIC PUBLIC SCHOOL.

By an oversight on the part of the council of public instruction at Regina, the announcement of the promotions of the pupils resulting from the examinations of last June, reached the Reverend Sister Dillon, the principal of the school, only by a recent mail. The promotions are as follows: Entrance, Leo Brown, Lillie Monte. Promotions, Christina Caillon, Constance de Cazes, Alice Lake, Jennie Josephine Maloney, Aloysia O'Neil, Alida Robillard, Narcisse St. John. It is most gratifying to the ratepayers of this district and to the public generally of the village and settlement of St. Albert, to hear of such excellent progress of the pupils, and the success of the good and devoted teachers. The more so when the linguistic difficulties of the school are taken into consideration. In the future, as in the past, this most efficient school may be relied upon to give the best of satisfaction to all concerned. By the present methods of the Reverend Sister Dillon and her able assistants, the progress of the pupils is most satisfactory, and we congratulate them on their success and extend our best wishes for the future.

GENERAL NEWS.

Sir Charles Tupper was presented by the Winnipeg conservatives with a life size portrait of himself which was painted by Victor Long.

Dalton McCarthy will speak in Winnipeg on May 25. It is proposed to give him a reception and to hold a mass meeting in a rink or in Fort Garry Park.

Clarke Wallace made straight defiance to the conservative machine in a speech in Toronto. He said he intended to exercise absolute freedom in the campaign.

The Free Press of May 9th says: "Dr. H. C. Wilson, mayor of Edmonton, is in the city. The name of Dr. Wilson has been connected with the conservative nomination in his locality for the commons in opposition to Mr. Cochran and Oliver."

A Yokohama dispatch says: Negotiations are in progress between Japan and Russia looking to joint action in Korea. The chief points under discussion are the return of the king to the palace from the Russian embassy, Japan to have the disposal of troops about the palace and placing of the Korean telegraph system in the hands of the Japanese.

A Havana despatch says: Countrymen in Santa Clara affirm that Maxime Gomez, who was coming from Puerto Principe in the direction of the province of Pinar Del Rio, has returned to the point where he started in obedience to orders from the Cuban insurgent government. It is reported that the countrymen along his route infer that this action may concern the rumor that a peace is possible. They assert that one of the relatives of a prominent insurgent leader has said: "We would accept federal government, but not colonial autonomy."

An Ottawa despatch says: Director Dawson, of the geological survey, has completed his programme of field work for the staff during the coming summer. McConnell leaves next week to examine part of the Saskatchewan river near Edmonton in connection with prospective irrigation. He will go by way of Hudson Bay to further explore a part of the Labrador peninsula. Dr. Bell, assistant director, will also spend a portion of the summer in the vicinity of Hudson Bay.

A telegram from Quebec of May 5th, says: Hon. Mr. Laurier has given a great reception at St. Roch last evening. It was a grand ovation. He made an important declaration, which roused great enthusiasm. He said, if he was placed in power, he would appoint a commission of enquiry, at the head of which he would place Sir Oliver Mowat. This would be a guarantee of justice; nay, more than justice, a guarantee of generosity. This commission, with Mowat at its head, would be sent to Manitoba to make a report on the grievances of the minority. He was confident justice would be rendered to the minority, and the majority would be the first to acquiesce. He referred to the part taken by such men as Nelson, Macdougall, and Samuel Hume Blake in the struggle for the liberties of the English and French alike, and added that these men had worthy successors in Ross and Mowat.

The Free Press says editorially: The variety of platforms presented for the endorsement of the electors is one of the characteristics of the present political contest. In addition to the two great party issues of conservative and liberal there are the modifications expressed by prefixing the word independent. There is also the patron platform which neither of the other parties ventures entirely to condemn, though they deprecate its possible interference with the success of some of their own candidates. It is the hearty endorsement of the possibility that the clash of these different platforms in some constituencies will result in failure to secure representations for the majority of the electors in them. We hear a good deal in the way of suggestion from one or other of the great parties, that the patrons for instance, being practically at one with them in the main features of their platform, should throw in their lot with that particular party. The patrons on the other hand are beginning to assert the principle that these proposals of retirement, to be satisfactory, should be reciprocal. The multiplication of platforms so far as it indicates the growth of political independence, is a development which is not accompanied by friction.

A despatch from Havana gives the following particulars of the capture of the Competitor: Members of the Competitor flying expediting their mission of espionage in the act of landing their munitions of war on the coast of Cuba, important papers were found in their possession, addressed to Gen. Maceo. The Competitor was sighted a

a week ago by the war launch Mensajera which signalled the schooner. No answer being made a volley was fired, some bullets entered a box of cartridges and an explosion occurred. Three men in the boat fearing the cargo contained dynamite, jumped into the sea and tried to swim ashore. The Mensajera sailors opened fire on the swimming men, killed two and wounded another, who was drowned. Labadie, the leader of the expedition, reached the shore and was arrested. His family is well-known in Havana, his father was for several years in the Spanish navy and the Mensajera, formerly named Laborde in honor of the ancient Don Laborde. Dr. Bedis, Milton and another prisoner, whose name the authorities refuse to divulge, were taken to Havana in irons and the schooner confiscated. Three men remained on the Competitor, among them Hamilton, editor of the Key West paper Mosquito. He surrendered without resistance and made his plight known to United States Consul Williams who interceded for him.

A special to the World from London says: The British government still maintains a rigid silence concerning its action in regard to Cecil Rhodes in view of the disclosure of the cipher telegrams, but the facts of Rhodes' position have been ascertained. The World correspondent hears also that President Kruger has in his possession altogether fifty-four incriminating telegrams, of which he has so far published only about a dozen. Many of those still unpublished are understood to be innocuous, but of others several will prove very striking revelations. The critical character of the situation as between Great Britain and the Transvaal, before President Kruger's mastery use of the cypher dispatches, may be gauged from advice recently given by Sir Charles Kitchener to the imperial government, which had invited an opinion from him on the policy to be adopted. He replied that there were two courses open to the imperial government, either to wait and await Kruger's action towards the Uitlanders, or to take immediate warlike measures. He favored the former policy, because it would take 50,000 men to conquer the Transvaal, to say nothing of the consequential troubles and complications which would ensue.

The Guelph Mercury says: The failure of the government has been so marked that Sir William Van Horne recommends that a special commission be appointed to carry on a vigorous immigration policy, and the result conveyed at Winnipeg passed resolutions, we believe, to the effect that the control of immigration should be taken out of the hands of the government and vested in a bureau, whose superintendent should be the chief of Canada dealing with the immigration. From these two important quarters come these confessions of the incompetency of the government in this vital matter. For quite a number of years very large sums have been paid immigration agents and for the printing of immigration pamphlets with very few results. When Mr. Daly became minister of the interior he talked very big, and it ended in talk. The life and future prosperity of the Dominion depends largely on our securing more population. The present government have utterly failed to rise to the level of their opportunities in this regard.

The clause in Sir Charles Tupper's address to the electors of Manitoba school question, although shamefully misrepresented by men who have had a purpose to serve in doing so or who have been misled by misapprehension of the real merits of the question, the fact is recognized that the government has taken a clear and definite stand on a constitutional aspect of the matter. We have simply done what we believed to be right in taking up the duty laid on our door by the judgment of the highest court in the realm, and in endeavoring to redress the grievances of the Roman Catholic minority in Manitoba by restoring the rights and privileges guaranteed to them by the constitution. Knowing our case rests upon a sound constitutional basis, and feeling we are doing right, it is our patriotic duty to adhere to the policy we have adopted in this regard, and we now appeal for a vindication to the sober sense and the justice of the Canadian people."

The Montreal Witness strongly advocates inviting Edward Blake to take part in the contest, saying: "Blake's appearance on the hustings in Canada at this time would create consternation in the ranks of those conservatives who are using his name in a very unbecoming way to injure Mr. Laurier, a devoted colleague of Blake in other ways and to discredit the cause of tariff reform for which Mr. Blake worked with all his might. There are those who represent his denunciations of extravagance and regret for the delaying of free trade caused by the great piling up of debts as condemnations of tariff reforms. It is hardly possible for prevaricators to go further. Happily Mr. Blake is not as Mackenzie was, beyond the reach of appeal, and this use of his name may suggest the advisability of inviting him to Canada to give the aid of his great influence to the liberal leader and cause of tariff reform."

GENERAL NEWS.

The campaign in Western Assiniboia was opened last Wednesday at Regina when a meeting attended by all three candidates was held at the call of the liberals.

There are from 90,000 to 100,000 tramps in the United States, costing the country from \$18,000,000 to \$20,000,000 annually. Four-fifths of these tramps are under fifty years of age, able-bodied, and have at least ability to follow useful occupations. One list shows that the tramps are represented in nearly every trade in the United States, though the largest number of tramps give their occupations as laborers.

Dispatches from Bulawayo, say that Earl Grey, the newly arrived co-administrator with Cecil Rhodes of the territory of the British South Africa company, who is now in charge there, has officially expressed the opinion that the back of the Matabele rebellion is broken. Continuing the earl said he hoped all the disorder which has been caused by the imperial troops arrive. Bulawayo, he asserts, although at one time in greatest peril, is now, thanks to the perfected defenses and the lessons taught the natives by repeated sorties as safe as London or Paris.

A cable from Buenos Ayres of May 8th, says: The congress of Argentina opened today, and the message of President Uruburu was read. The message referred to the settlement of the boundary dispute with Chili, which has long been a source of irritation between the two governments, and the settlement of which causes great dissatisfaction in both countries. The president points out that during 1895 the exports from Argentina exceeded the imports by \$25,000,000. Alluding to the improving condition of the country, he said that the government already possessed in Europe enough funds to pay all its external debts. He recommended the liquidation of past debts, and the unification of the external, national and provincial debts, although it was not incumbent upon the nation to pay the latter.

A recent dispatch from London, says: Extraordinary tidings come from Copenhagen by mail. The statement is made that it has been discovered that the young Norwegian explorer, Estrup, whose body was found lying in a snow-filled ravine, did not meet death by accident. His temple was pierced with a bullet. The revolver of which he had made use was lying by his side in the snow. He had killed himself. Nor is this all. It is charged that the affair was nothing less than what is called an "American duel," and according to report, Estrup's adversary was the American lieutenant and explorer, Peary. Danish newspapers freely discuss the event, considering it a stubborn fact. Norwegian newspapers are more cautious. The "Duel American" as it is called in Europe, is where the two antagonists draw straws or cut cards, the loser being bound to die by his own hand.

The Regina Leader which was formerly owned by N. E. Davis, says: Some time since we mentioned the possibility of Mr. Davin having an explanation of his remedial vote up his sleeve. Well, he really had one, and he shook it down last evening. What was it? Ah! What was it? It was this: "I did not vote for the bill." Now, God forgive us; we thought he had voted for the bill. Who did vote for the bill? Who were the members that decided that to pass remedial legislation in 1896 was advisable and expedient and proper and imperative? Mr. Davin did not say so much, but he no doubt thinks it was Mr. Laurier and his followers!

BY-LAW NO. 116.

A By-Law to authorize the Municipality of the Town of Edmonton to subscribe for shares to the amount of \$50,000.00 in the capital stock of the Edmonton District Railway Company.

Whereas, a petition signed by at least three-fourths in number of the resident ratepayers of the Municipality of the Town of Edmonton, entitled to vote on by-law requiring the sale of the electric, has been presented to the Municipal Council of the said Municipality for the passing and due ratification of a by-law to authorize the Municipality of the Town of Edmonton to subscribe for shares to the amount of \$50,000.00 in the capital stock of the Edmonton District Railway;

And Whereas, the said Edmonton District Railway Company contemplate constructing, maintaining and operating a line of railway near to and within the Municipality, and the Municipality is, in the opinion of the Municipal Council, interested therein;

And Whereas, it is deemed expedient that the Municipality should subscribe for shares in the said, the Edmonton District Railway Company to an amount not exceeding \$50,000.00, subject to such conditions as to be agreed upon between the Municipality and the Company prior to such subscription as shall appear necessary and expedient to the Municipal Council for the protection of the interests of the said Municipality;

And Whereas, for the purpose aforesaid, it is necessary to borrow the amount of the sum to be subscribed for, either in one sum or in several sums from time to time, as it becomes necessary to pay the bills upon the stock;

And Whereas, it is expedient that the subscription moneys when raised shall be raised by the issue of debentures aggregating the said sum of \$50,000.00, payable in twenty years, bearing interest at the rate of six per cent. payable half yearly;

And Whereas, the amount of the whole rateable property of the Municipality, according to the last revised assessment roll, is \$1,181,750.00;

And Whereas, the total amount of the existing debt of the Municipality, outside of the debt due for the current expenses of the year, is \$18,510.83, incurred for local improvements, and \$30,955 incurred for permanent improvements, making in the whole the sum of \$49,465.83, whereof no part is in arrears;

And Whereas, it is expedient to provide for the payment of the principal of the said debentures by the creation of an equal yearly sinking fund;

And Whereas, the total amount to be raised annually by special rate for the paying of the said debt, by means of a sinking fund as aforesaid, and the interest thereon as aforesaid, is \$49,465.83;

And Whereas, the annual special rate on the dollar as being sufficient to pay the said interest and to create the said equal yearly sinking fund for the payment of the said debt is \$6.10 mills;

Therefore, the Mayor and Council of the Municipality of the Town of Edmonton, in council assembled, enact as follows:

1. This By-Law is to take effect on the first day of June, 1896.

2. The Mayor and Clerk of the Municipality are hereby authorized to issue debentures of the Municipality to the aggregate amount of \$50,000.00, payable within ten years from the day of the date on which this by-law takes effect, with interest at the rate of six per cent. per annum, payable half yearly, such debentures to be payable at the office of the Treasurer of the Municipality of the Town of Edmonton, and to have attached to them coupons for the payment of interest.

3. For the purpose of paying the amount which shall be required to be raised annually for the payment of the said interest and creating the equal yearly sinking fund to be set apart for the payment of the principal sum of \$50,000.00, a special rate of \$6.10 mills shall be levied upon the whole rateable property in the Municipality, in each year for the period of twenty years, during which the said debentures shall be current.

4. The said debentures, when so issued as aforesaid, shall be deposited with the Treasurer of the Municipality, and the same, or the proceeds thereof, shall be by him delivered to the Edmonton District Railway Company, only after the passing of, and according to the provisions of a by-law to be hereafter passed by the Municipal Council in that behalf, confirming an agreement to be made hereafter between the Municipal Council on the one hand of the Municipality, and the Edmonton District Railway Company.

5. Tuesday, the 26th day of May, 1896, between the hours of nine o'clock in the forenoon and five o'clock in the afternoon, at the office of the Town Clerk, Edmonton, is hereby fixed as the day, place and hour for taking the votes of the electors for and against this by-law.

6. Arthur G. Randall is hereby appointed Returning Officer and St. George Jellett, Deputy Returning Officer to take the votes at the said time and place.

7. Tuesday, the 26th day of May, 1896, at the hour of six o'clock in the afternoon, at the office of the Town Clerk, Edmonton, is hereby fixed as the time and place when and where the Returning Officer will sum up the number of votes given for and against this by-law.

Provisionally adopted in council at Edmonton this 23rd day of April, A. D. 1896.

M. McCauley, Acting Mayor.
A. G. RANDALL, Town Clerk.

NOTICE.

The foregoing is a true copy of the proposed By-law which will be taken into consideration by the Municipal Council of the Municipality of the Town of Edmonton, after being voted on by the electors. The date of the first publication of the said proposed By-law, with this notice appended thereto, is Tuesday, the 26th day of May, 1896, and the day, place and hour for taking the votes of the electors for and against this by-law.

Dated this 23rd day of April, A. D. 1896.
